

Application

It is used for connection of wires to wiring tails of contacts by crimping

Design description

- lever type
- metal version
- selectivity of connection wire diameter and contact diameter

Characteristics

Correspondance of the crimping contact diameter and and connected wire diameter are given in the table

Table

Contact diameter, mm	Wire cross section, mm ²	Wire diameter across insulation, mm
1,0	0,2 ... 0,6	1,02 ... 1,80
1,5	0,6 ... 1,34	1,73 ... 2,62
